

A world class team looking for a world class colleague!

Are you our new Strategic Procurement Manager?

Sivers Wireless, a subsidiary to Sivers Semiconductors, develops, manufactures and sells chips, components, modules and subsystems based on advanced technology for 5G millimeter-wave networks. Our cutting-edge technology products enable our customers to offer faster and more reliable connections. We have completed our first generation of mmWave RFICs supporting frequency bands from 24 GHz to 71 GHz and we are now starting the development of our next generation products.

Sivers Wireless now look for future colleagues that share our passion for perfection and exceeding customers' expectations. Are you the one we are looking for?

The opportunity:

Sivers Wireless are strengthening our Operations team with a Strategic Procurement Manager with a strong drive and commercial mind set. Today we are a small team working with vendors and production partners in a global setting. The main focus is sourcing of RFIC- and PCB manufacturing working with our EMS partners. This role reports to VP Operations.

Tasks and responsibilities:

- Lead all aspects of, prepare and execute the RFI and RFQ process together with the NPI team
- Evaluate, select, and manage our suppliers
- Ensure supplier agreement implementation and follow up
- Contribute to the long-term business by performing negotiations and working with cost management
- Working with improving and maintaining our procurement processes

Required qualifications and experiences:

- The ability to drive your own results
- Leadership skills (getting results through others)
- Communication skills
- Curious mind-set
- People skills
- Sourcing practice, process, and strategy knowledge
- Change and improvement management skills
- Commercial skills in respect to procurement
- Financial skills in respect to procurement
- Local laws and regulations knowledge
- Excellent English skills, Swedish is meritorious

We offer:

An exciting and challenging position where you get the chance to work with cutting-edge technology and state-of-the-art mmWave instruments. Together with skilled colleagues you will develop world-class RFICs for wireless communication. We are now expanding our Gothenburg and Kista lab facilities to increase our test and validation capacity. The labs are well equipped and will during the spring be further updated with new mmWave capable instruments and a new anechoic chamber.

Location: Kista

Application: Send to career@sivers-semiconductors.com. We will continuously review in-coming applications.

Sivers Semiconductors AB is a leading and internationally recognized technology company that, through its two business areas Wireless and Photonics, supplies chips and integrated modules. Wireless develops RF chips and antennas for advanced 5G systems for data and telecommunications networks. Photonics develops and manufactures semiconductor-based optical products for optical fiber networks, sensors and optical fiber communications (Li-Fi). The company is listed on Nasdaq First North Growth Market Stockholm under SIVE. The head office is located in Kista, Sweden. For more information: www.sivers-semiconductors.com
